Gama Aviation announced today that the Scottish Ambulance Service has again selected the company to be its dedicated provider of air ambulance services, extending its contract for seven more years, to 2020. Gama's Scottish fleet includes a Beechcraft King Air 200C at both Aberdeen and Glasgow Airports and a Eurocopter EC135T2 at both Glasgow and Inverness. The two EC135s will be replaced with two new EC145T2s next year. Two Eurocopter Super Pumas in Shetland and Aberdeen are also on standby.
